Ameen,

Please call her today/ this evening and note that you are returning her call to me on my behalf. Please shoot Tom and me a note after you've made contact or left a message so that I have the record in case she catches me when you are not in at a later date.

Please also respond to Tom's email about the expenses so that we both are tracking the amounts to date and the anticipated amounts. I know I got Jim's approval for something, but can't recall the details. Also, did we get Naima's sign off on this as well?

Thanks.

I would caution you calling her back, Maria is very difficult to deal with. There are a couple issues pending with her. First, the billings for depositions and documents she has provided. I have submitted some of them to accounting but there are others I am working through carefully to make sure they are accurate. Second, she is pushing us to have her depose a number of other people. The team and I are working through this to identify only those who are absolutely necessary because of the high expense and I am not going to allow her to depose unnecessary witnesses simply for her to make money.

I planned on talking to her later today or tomorrow.

I had a voicemail from nevin's attorney asking me to return her call on an urgent issue. Let me know what you think. I'd like to call her back with you joining. I'm free until 3.
