# Case Study

## DSU 2016 W.C. Jason Library Renovation

### Project Snapshot:

- Incorporated improvements to spaces utilized by Academic Support for Student Athletes, University College, & Library Services
- 16,000 square feet of 2nd floor
- \$739,038.08 in construction costs

## Programming Needs:

- ASSA received NCAA AASP grant to expand existing department—Requiring additional programming space
- University College programming also changing to provide advisement to the entire student population in Fall 2016
- Current University archives space undersized with no exhibit space

Computer Lab - Pre-Renovation

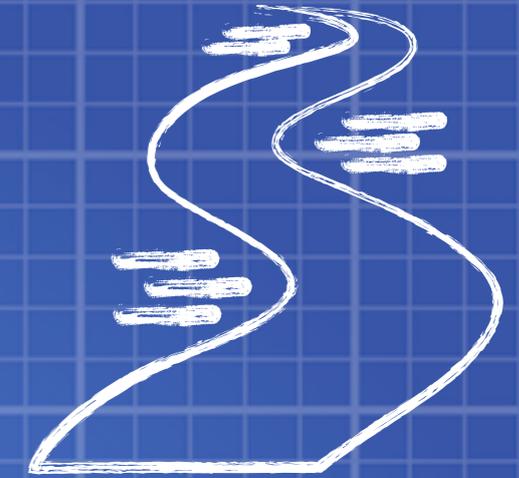

Study Area - Pre-Renovation

# Post Renovation:

# Following the blueprint...

## One Vision

1. Leadership support.
2. Student-centric discussions.
3. Stakeholder buy-in.

## Flexibility

1. Focused on change management.
2. Sacrifice vs. reward...
3. Students Win.

## Transparency

1. Stakeholder engagement.
2. Brainstorming sessions.
3. Frequent meetings/updates.

# What's the take away?

1. Create a blueprint centered around stakeholder collaboration.
2. Commit to and execute the blueprint.
3. Give the customers (students) you serve the opportunity to succeed.

Education is the difference between wishing you could help other people and being able to help them. - Unknown
